

Placement Cell — AI Use Policy

Name: Bhavyateja Penke **Date:** 11 June 2025 **Lab:** 3B — Day 3

STUDENT-AI SCENARIO RISK CLASSIFICATION (EU AI ACT TIERS)

#	Scenario	Tier	Reasoning
1	AI résumé editing (bullets, grammar polish)	Limited	Allowed; student must dis
2	AI mock interviews (ChatGPT practice)	Minimal	Free use. Practice tool on
3	AI-written application essays	High-risk	Allowed only with mentor
4	AI-coded GitHub portfolio projects	High-risk	Allowed with mandatory o
5	AI in graded internal assignments	Unaccept able / Limited	Unacceptable where abilit
6	AI-generated CGPA on résumé	Unaccept able	Falsification of academic i
7	AI-cloned voice for video interview	Unaccept able	Identity fabrication. Banne
8	AI for skills self-assessment	Minimal	Free use. Self-reflection to

PERMITTED USES

1. AI **may** be used to: rewrite résumé bullets for clarity and grammar.
2. AI **may** be used to: simulate mock interviews for personal practice.
3. AI **may** be used to: explain technical concepts (DSA, OS, DBMS) in study mode.

4. AI **may** be used to: generate placement-prep study schedules from a given syllabus.
 5. AI **may** be used to: produce one-page company-prep briefs (when verified against the company's official website).
 6. AI **may** be used to: review and suggest improvements to student-written code (with subsequent oral defence).
-

PROHIBITED USES

1. AI may **NOT** be used to: fabricate projects, internships, or experience the student did not complete. **Detection:** Mentor oral defence — student must explain technical decisions and walk through project code.
 2. AI may **NOT** be used to: clone the student's voice or likeness for asynchronous video interviews. **Detection:** Recruiters require live-segment verification; voice-continuity anomalies flagged by T&P cell.
 3. AI may **NOT** be used to: generate or alter academic records (CGPA, marks, transcripts). **Detection:** All CGPA/marks claims cross-referenced with the college academic portal before submission.
 4. AI may **NOT** be used to: write essays where the student's voice is the assessment criterion (SOP, motivation letters). **Detection:** Mentor reviews 2–3 historical writing samples and compares voice consistency before sign-off.
-

ENFORCEMENT

The placement cell will conduct random oral defences on portfolio projects, sampling 20% of placed students each cycle. Any unverifiable AI use that violates the Prohibited Uses above results in: first violation — written warning and portfolio re-defence within 7 days; second violation — placement support withdrawn for the current recruitment cycle. The placement cell acknowledges that not all violations are detectable; this policy relies in part on student integrity and the broader career consequences of misrepresentation discovered by a recruiter.

ACCEPTANCE CHECKLIST

-  All 8 student-AI scenarios classified with EU AI Act tier and one-sentence reasoning

-  Permitted Uses section: 6 specific sentences (verb + object + condition)
-  Prohibited Uses section: 4 rules, each with an enforceable detection method
-  Enforcement section: 3 sentences, honest about detection limits
-  Submitted as `Day3_AI_Policy.md` to ai-mentor-portfolio repo
